

Jerzee Monet, Tonight Is The Night

I know I
Been telling you
That it's not time
To give you loving physically
Baby you respected
And felt me
Now I feel something
Something that I never felt before
It's a feelin that I can't ignore
Sayin it's okay that I want more
So baby

[Chorus]
Don't go
Don't leave
Stay here
Hold me
I know
And you know
Tonight is the night baby
Don't go
Don't leave
Stay here
Hold me
I know
And you know
Tonight is the night baby

Baby don't be afraid
To touch my body
I know that it's been quite some time
Let me give you everything I
Been savin up
This time let me break it down
Down down down down down
I know that cha feelin it
You know that I'm feelin it too
Only one thing left to do
I feel that it's time
To finally make you mine
I wanna make love to you

[Repeat chorus to fade]
