

# JES, Ghost

I was a ghost before you came  
I was a slave but then I changed  
And I will take the good and bad from many  
When I am a slave to this again  
So leave me alone  
Before the strain  
Of listening to me  
Becomes more  
Than you can bear  
Or maybe this time we will be fine  
Or else tomorrow  
Will be lost  
I feel you calling me when I am alone  
I feel you calling me its keeping me up  
I wanna be with you now  
It keeping me  
Its keeping me up  
There was a force I swear  
I thought it d take me out  
And there was a chance that we could go so far  
As I look in your eyes  
I know that you say  
No war no war no more  
No more battles to fight in this life  
I feel you calling me when Im alone  
I feel you calling me  
Its keeping me up  
I wanna be with you now  
I feel you calling me when Im alone  
Hot nights and moonlight its keeping me up  
I gotta be with you now  
Tell me youll wait till then to find  
What races and grates before we explode  
And maybe this time we will be fine  
And our tomorrow  
It wont be lost within this lie  
I swear.  
I feel you calling me when Im alone  
I feel you calling me  
Its keeping me up  
I wanna be with you now  
I feel you calling me when Im alone  
Hot nights and moonlight its keeping me up  
I gotta be with you now
