1- Go upstairs, take off your clothes  
I've something for you tonight  
Lead the candles put down the chess  
Gonna make you feel alright

Baby, I've burning up  
Longing for you within  
It seems like it spends so long  
Couldn't wait to see you again  
You had the longest day  
For whatever reason and I  
I understand so let's kiss  
And let's thug and let's touch  
Like only we can

Repeat 1

There'll be nothing interruptions  
We've got the whole place  
To our serve, no one else  
And if there's something's on your mind  
Want you to tell me  
And no one else cause right now  
I wanna be the only person on your mind  
So let's kiss and let's thug and let's touch  
Like only we can, baby
