

# Jesse Powell, If You Like What You See

(Verse 1)

I see you over there  
You've got your eyes on me  
Hoping that I won't notice  
I feel it in your stare  
You're inviting me to touch your heart  
You're not sure just where to start

So, baby  
Come over here  
I won't bite you  
Baby, I like you  
If you've been hurt before  
I won't let you down  
I'm only one of a few good men that's left to go around

(Chorus)

If you like what you see  
Don't hide it from me  
'Cause I would never leave you alone  
If you like what you see  
Come share, share my love  
And the dream that a broken heart that's lost  
Can find it's way home, home...

(Verse 2)

So, baby, take my hand  
And we'll be half way home  
The rest to me is destiny  
We stand at love's command  
I'll protect, defend and honor you  
There's no fear when love is true

So, baby  
I'm coming over there  
'Cause I believe you really care  
&lt;If you've been hurt&gt; If you've been hurt before  
I won't let you down  
I'm only one of a few good men that's left to go around

(Chorus)

(Bridge)

&lt;Like what you see&gt; If you like what you see  
&lt;Give it to me&gt; Come give your love to me  
&lt;Like what you see&gt; 'Cause I like it, baby  
&lt;Come and get it&gt; C'mon, I like it...

(Chorus/Vamp Out)
