

Jesse Powell, Invisible Man

This may come some surprise
***But standing well within your sight
***There's a love that never fades away
***If I were to look into your eyes
Would my reflection materialize
As the love you need or what used to be
****Or would I even see me

1- Here I stand, the invisible man
You don't even see
What you do me oh
Don't you see me standing here
***Or have I disappeared
***I might as well not even be here.....at all

Is funny how you see me
Baby when you need me
***Right out of thin air
Somehow I re-appear
How am I suppose to feel
Wondering if your love is real
***If I'm here in vain
I don't wanna stay but I can't stay away

Repeat 1

***Seasons might change that colours
But feelings remain
When it's really love
You might not see me
But I'll always be
Waiting right here for you to love

Repeat 1
