

# Jesse Powell, Let Go

(Verse 1)

I know that you need me, mmm  
So baby I dare  
You to release it  
Baby you know that I'll take you there  
You want me, sexually, ooh  
You know I'll go all the way  
So baby don't tease me, ooh  
It wouldn't be fair  
I can see that you're feelin'  
Every time that I touch you there  
Nothing is wrong with gettin' it on  
Ooh, lets go  
Lets flow, baby it's been too long

(Chorus)

Baby just let go (let go), and don't fight (baby don't you fight it)  
Ah, baby 'cause I know  
(I know all the things you like)  
If you just...  
Let go, baby it's alright  
'Cause I wanna groove with you  
Wanna lay with you  
Whatever you want me to do

(Verse 2)

Baby I'll love you, like a good wine  
Work on you slowly  
Baby you know that I'll take my time  
I know you've got a little freak in you  
Ooh, I'm down, right now  
For whatever you choose

(Chorus)

(Bridge)

Come on baby you can't hold out forever  
Don't you wanna taste of my love, my love  
You know I won't let you down, baby  
If you just let go  
I'll show you right now

(Verse 3)

So how are you feelin', mmm  
Was it alright  
Was I what you been needin'  
Baby you can't hold the love inside  
You and me can make a little history  
Ooh, baby let's make love all night (all night)

(Chorus and breakdown to fade)
