

Jesse Powell, Looking For Love

(Chorus)

Are you looking for love
Girl, do you need someone to give it to...yeah
Could I be the one to show you
The love that you've been looking for
See what you're going through
Baby I'm the one for you

(Verse 1)

I would like to know if that look that's in your eyes is sincere
Tell me
Baby, I am not the type to front, 'cause when I give my love, it's for real
So for real
When the party's over and the lights go down
Tell me if you'll be there when there's no one around
'Cause I really wanna love you and I'll do it well
I can give you something you can truly feel

(Chorus)

(Verse 2)

So, what's it gonna be, do you think you might wanna get with me
Tell me
Girl, you've got to let me know, please don't lead me on, what's the deal
What's the deal
When the music stops
And the lights come on
Please don't leave me hanging, baby don't do me wrong
'Cause I really want to love you, and I'll do you right
Give you what you need baby all through the night

(Chorus x 2)

If you want it, I got it in the morning
If you need it, I got it in the evening
If you want it, I got it in the morning
If you need it, I got it in the evening

(Chorus x 2)
