

# Jessica Andrews, Heart Shaped World

This ain't the planet I've been living on  
It don't circle round the sun  
Ever since the day you came along  
Everything I do revolves around you  
you're my only one

[Chorus]

Cause I'm waking up to love I'm crossing new frontiers  
Living in a heart shaped world  
And I'm starting to see that we could stay forever here  
Living in a heart shaped world  
Now everybody knows the earth is round  
Chris Columbus showed us that  
Call me crazy but I think I've found  
A reason to believe maybe history  
Should review the facts

[Repeat Chorus]

I've heard that love can turn your world around  
But you have changed the shape of my world somehow  
Everything I do revolves around you  
Now I'm waking up to love I'm crossing new frontiers  
Living in a heart shaped world  
And I'm starting to see that we could stay forever here  
Just living in a heart shaped world
