

Jessica Andrews, Never Had It So Good

They could look all their lives
And not find what we've got
Up and down, all around
Beneath every rock
Our love is one of a kind
Where you took my heart
Is a whole different trip
It's a new cup of tea
I live for each sip
Our love intoxicates my mind
Your kisses tell me more than words can say
Your touches, they just take my breath away

When we're together
Nothing could ever be better
Don't you know that I have never
Never had it so good
Never had it so
Never had it so good

Round the block, round the world
We can go anywhere
Do a dance, sing a song
We can do what we dare
Our love is gonna take us there
Your kisses tell me more than words can say
Your touches they just take my breath away

When we're together
Nothing could ever be better
Don't you know that I have never
Never had it so good
Never had it so
Never had it so good
