

Jessica Folker, Miracles

Late at night i'm feeling something that i can't disguise
So i get too close to you
Well i can't believe that you and i never came to this
All those nights with you right by my side craving for one kiss

Do you believe in miracles
Can you feel when i'm close to you
Baby do you believe i believe in you

Here we are
Drifting slowly on a lonely star
And i hope it never ends
well i can't believe that you and i never came to this
All those nights with you right by my side craving for a kiss

Do you believe in miracles
Can you feel when i'm close to you
Baby do you believe i believe in you

Do you believe we can take the world
All we need is a love that's true
Baby do you believe i believe in you

You hold they key to my world in your hand
Between a woman and a man
Do you believe in miracles

Do you believe in miracles
Can you feel when i'm close to you
Baby do you believe i believe in you

etc.
