

Jessica Jean, Black Box

I'm a suck it up
Like I never knew it
I'm a black it out
Like you never blew it
Gotta draw the line
When you drop me like a piece of trash
I'm Poppin' your secrets like a new designer drug
Cold sweats everytime I hit it up
I'm a take the pain
Lock it all away
And swallow the key

I'll put it in my black box
Let me go blind
Keep it in a box in the back of my mind
I'm about to smash it!
break it! throw it! shake it!
Never let it out
Keep it in my black box, yeeeh!
Keep it in my black box, yeeeh!

All the dirty tricks
Kept in the closet
Now I know it's sick
I wish I wasn't
So I'm a roll you up
Smoke you like a cigarette

You can save the bullshit diamonds and the limousines
You ain't better than you've ever been
I'm a take the pain
Lock it all away
Swallow the key

I'll put it in my black box
Let me go blind
Keep it in a box in the back of my mind
I'm about to smash it!
break it! throw it! shake it!
Never let it out

I'll put it in my black box
Blow it into pieces, get my head straight
I'm about to smash it!
break it! throw it! shake it!
Never let it out

It's like a papercut everytime I see you
tearin' at my heart, got me in a fever
I got to shut it all away
Get a little closure, push it to the side
Brush you off my shoulder
I won't let you weigh me down
I won't ever let ya' out

I'll put it in my black box
Let me go blind
Keep it in a box in the back of my mind
I'm about to smash it!
break it! throw it! shake it!
Never let it out
/3x

Keep it in my black box, yeeeh!

Keep it in my black box, yeeeh!
