

# Jessica Mauboy, Breathe

How can I, How can I breathe  
How can I, How can I breathe  
I'm breaking down a little  
I'm throwing in the towel  
Need you to get me off the ground  
You sayin that it's over n we can't be together  
But I really need you around  
Just stay a minute n don't chu let go of me  
You take my breathe away  
I don't wanna be left on my own like this  
I'm breathless  
Now I can't even breathe.  
I gave you all of me, but chu won't let me breathe  
Killing me softly, breathe  
Without you there's no need, So how can I breathe  
Your all the air I need  
So let me breathe  
How can I, How can I breathe  
How can I, How can I breathe  
Was I supposed to know, you leavin me alone, you knew that it would end this way  
I'm lost without your loving  
I'm missing everything, but now your so far away  
Don't waste a minute, just make your way home, to me  
Don't take my breathe away  
Why would you wanna leave me on my own like this?  
I'm breathless  
I can't even breathe  
I gave you all of me but chu won't let me breathe  
Killing me softly, breathe  
Without you there's no need so how can I breathe  
Your all the air I need so let me breathe  
How can I, How can I breathe  
How can I, How can I breathe  
I don't wanna be here no more ever since you walked out the door  
You took away my heart, you tearin me apart, but chu were all I need  
Your all that I'm waiting for  
So I 'm waiting for tomorrow  
Until you come back to me  
So you can let me breathe  
I give you all of me, let me breathe  
Killing me softly, breathe  
Without you there's no need, so how can I breathe  
Your all the air I need, so let me breathe  
Let me breathe  
Just let me breathe  
mmm won't you let me breathe  
Let me breathe
