

Jessica Mauboy, To the floor

We go on,
We go on,
We just let the beat take us away until the early morn,
I feel the music, deep in my body and I can't help it I just loose it,
Even when everybody is watching I just,
Break it down,
Break it down,
Break it down,
Break it down,
Break it down,
Break it down,
Break it down,
So tell the dj this is my song so keep it going on the replay all night long,
So we can show them how to
Work it out,
Work it out,
Work it out,
Work it out,
Work it out,
Work it out,
Work it out,
We go on,
We go on,
We just let the beat take us away until the early morn,
So every weekend me and my girls pay at the club,
We don't be speakin' we just be out there on the floor,
That's when we
Break it down,
Break it down,
Break it down,
Break it down,
Break it down,
Break it down,
Break it down,
See we be showin' how poppin and lockin' moves,
They don't even know about, wait for the needle to drop that's when we,
Work it out,
Work it out,
Work it out,
Work it out,
Work it out,
Work it out,
Work it out,
We go on,
We go on,
We just let the beat take us away until the early morn,
