

Jessie Murph, Drunk in the Bathtub

At a party on the west side
Showed up quarter after midnight
Had like 4 too many bud lights
God I know just what it feels like
When your knees they feel weak and you
And you don't want to speak and the
And the days become weeks and the nights become life
When you feel like you're dying but it's mid July and you're cold

I can not get up but
Trust me I'm trying to
I'm making these messes
I'm tearing these dresses
I'm slurring my s's I know

Yeah there's no way in hell I'm driving home
Coke all on the table like it's snow
Yeah won't you tell your friends leave me alone
I just need a minute can you go

Let me be
Just let me be drunk in the bathtub
Drunk in the bathtub

They got strippers in the back room
Someone's daddy giving tattoos
I ain't feeling like I'm supposed to
You should stay locked in the bathroom
If your knees they feel weak and you
And you don't want to speak and the
And the days become weeks and the nights become life
When you feel like you're dying but it's mid July and you're cold

I can not get up but
Trust me I'm trying to
I'm making these messes
I'm tearing these dresses
I'm slurring my s's I know

Yeah there's no way in hell I'll make it home
Coke all on the table like it's snow
Yeah won't you tell your friends leave me alone
I just need a minute can you go

Let me be
Just let me be drunk in the bathtub
Drunk in the bathtub

Let me be
Let me be drunk in the bathtub
Thinking it's bad luck
Tripping I'm slipping like I took some bad drugs
damn

Let me be
Just let me drunk in the bathtub
No matter how fucked up
Ill black out I'll pass out before I get in that black truck
