

# Jessie Murph, I Would've

I would've loved you  
Would've stayed up all night  
I could've loved you  
For the rest of your life  
Would've taken the cocaine off your lips  
Ripped out the bottle from your fist  
I would've loved you  
I, I

Woke up at the bottom of my bed, the bottom, baby  
Went through hell and back for you and this how you repay me  
Put two and two together, you sound motherfuckin' crazy  
First at bed to beg and know you wish you pushin' daisies  
So you fuckin' hate it

And when you act this road along, long, long  
Feeling sorry, feelin' low, low, low  
There's no one far beside you, oh, oh, oh

I would've loved you  
Would've stayed up all night  
I could've loved you  
For the rest of your life  
Would've taken the cocaine off your lips  
Ripped out the bottle from your fist  
I would've loved you  
I, I would've loved you

I, I would've loved you

Who knew? That bitch has a screw loose  
Could've had honest, woo-hoo, now you're gon' fuck with this voodoo, yeah  
Sideways, now just look at you sideways  
Bro' get the fuck out my driveway  
You broke the window with no pain, yeah

So when you act this road along, long, long  
Feeling sorry, feelin' low, low, low  
There's no one far beside you, oh, oh, oh

I would've loved you  
Would've stayed up all night  
I could've loved you  
For the rest of your life  
Would've taken the cocaine off your lips  
Ripped out the bottle from your fist  
I would've loved you  
I, I

I would've loved you  
I, I would've loved you
