

# Jessie Murph, What Happened to Ryan

French fries off the dollar menu  
Parking lot outside the venue  
We used to go  
With somebody I used to know, mm  
Made a mess out in your kitchen  
Then watched shitty television  
Oh-oh-oh-oh  
Feels like a life time ago

Has anybody heard from him?  
'Cause lately I've been wondering

What happened to Ryan? He's radio silent  
Oh-oh, the last time I saw him, I think he was drinkin' and drivin'  
What happened to Ryan? His mama been cryin'  
Oh-oh, he can't get out of bed but God knows he's tryin'

First, it was vodka in a water bottle  
We was sippin', slippin' like there's no tomorrow  
Anyone could see it was fuckin' you up  
A real fuckin' friend would've taken your cup  
But we were young then  
Sometimes I wish that we were young again, yeah  
Back to when the partyin' was not a problem  
And if it ever was, man, the shots would solve them all

And I barely made it out  
So it's hard to think about

What happened to Ryan? He's radio silent  
Oh-oh, the last time I saw him he told me he's thinking of dyin'  
What happened to Ryan? His mama been cryin'  
Oh-oh, he can't get out of bed but God knows he's tryin'

So tell me when it's over  
Maybe I'll come over  
We could be kids again  
Not everything has to end  
So tell me when it's over  
And maybe I'll come over  
We could be kids again  
Not everything has to end  
Hmm-mm
