

Jessy Greene, Time Bomb

Tick tock
Tick

Come to me
The moon is closer than your eyes
I can barely see through the cracks
Light shines out my scars
Sirens scream in vain
I have already died a million times inside

I surrender
Shoot me down
No bullet could
Stop me now
My love does not depend
On anyone or anything
It'll never die

I'm ticking like a time bomb
Soon to blow away
I am not you
You are not me
It still plays
I could say I love you
If only for a day
My mind sunk this ship
I am drowned in it

I surrender
Shoot me down
No bullet could
Stop me now
My love does not depend
On anyone or anything
It'll never die

Ticking like a time bomb
Ticking like a time bomb
Ticking like a time bomb
Ticking like a time bomb

I surrender
Shoot me down
No bullet could
Stop me now
My love does not depend
On anyone or anything
It'll never die

Tick tock
Tick tock
Tick tock
Tick tock
