Jesus And Mary Chain, Between Us

sung by William
written by William
Been a lot between us
And I guess there's more to come
We've been doing something right
But sometimes it goes wrong
We've been through places
And we won't be back again
We've been through faces
But I guess that never ends
I don't know what's goin on
Have we done something wrong
I've been strange I've been too strange
I've been to somewhere else and
I've been too strange
How come you saw right through my head
How come you saw inside my head
How come you know what's in my head
Been a lot between us
And I guess there's more to come
We've been doing something right
But sometimes it goes wrong
We were never scared of light
But the shadows that it throws
Are digging deep inside of us
And I think we're full of holes
