

Jesus And Mary Chain, Coast To Coast

sung by Jim

Feels like something pumping through my veins

I got the junk gun fever sinking to my brain

Feels like God in heaven's gone insane

I got a cat scratch engine takes me on the road

Wheels get rolling back to the world I know

Takes me just as far as I can go

I got my senses strung out to the sky

That desert city's got me reaching high

Here I come here I come

Junk town nothing got to keep it coming

Hipshake gunning kick start and I'm running

Just don't make it guess you got to fake it

Here I come here I come

On the road

Under a sky

Coast to coast
