

# Jesus And Mary Chain, Snakedriver

I've got syphilitic hetro friends in every part of town  
I don't hate them but I know them I don't want them hanging around  
I won't roll my bones for every little girl who gets on down  
I got space and space got me I should be selling it by the pound  
Ever since I heard the voice I thought I had no choice but then I kissed her  
I don't mind if I get broken I don't mind if I get fixed  
I don't mind if I'm not spoken I don't mind if I get kicks  
If I wake up dead I'll wake up just like any other day  
And the photographs of god I bought have almost fade away  
Everything just passes by I thought it always would but then I kissed her
