Jesus Jones, Move Me

around me, through me, over me you came you went there was no harm spent was it really worth our while?

move me, move me move me (if you can't it's not worth a damn) move me, move me move me (if you can't it's not worth a damn)

all the pain is ours to gain if it's dangerous it's good for us let's lose control, let it slip away

move me, move me move me (if you can't it's not worth a damn) move me, move me move me (if you can't it's not worth a damn)

move me, move me move me (if you can't it's not worth a damn) move me, move me move me (if you can't it's not worth a damn)
