

Jesus On Extasy, Nuclear Bitch

Her love is radioactive, don't get to near to her
cause you don't know that she's a nuclear bitch
she'll burn your hands and break your heart
she'll hurt your precious soul
you won't recover it's an open wound

She will contaminate you

Don't believe these angel eyes, they will hurt you
don't believe this lovely smile
she's a devil in disguise and no goddes
she's the nuclear bitch

So many other fools before have been right in your place
and more will follow, it will never end

She will contaminate you

Don't believe these angel eyes, they will hurt you
don't believe this lovely smile
she's a devil in disguise and no goddes
she's the nuclear bitch
