

Jet, Falling stars

Know That I Loved You From The Start
When we've believed in who we are
I never dreamed my life this way.
Don't wish upon a falling star
love all in a land is who we are
I dreamed a dream, so much has changed.
Wake! You've been sleeping
And tell me what do you believe in
You Fell So Far
You should have been a star.
Before the light begins to fade
I was hoping that you'd show me the way
To never ever be afraid to change.
Wake! You've been sleeping
And tell me what do you believe in
Wake! You've been sleeping
You've pushed too far now you're bleeding
You Fell So Far
you should have been a star.
And the light that you've been keeping inside
Will guide you on your way.
