

Jettingham, We're Through

Stop coming around here, stop trying to talk to me
I know you want to see me
But I want to see you with somebody new
So sit down and shut up, we broke up, what's up
You're just so fucked up

I've tried so hard to be polite
But I'm so fed up with being nice
It's exhausting getting screwed
So I'm here to tell you that we are through
Yeah bitch we're through

I've had enough now, you've taken this way too far
And we said we'd be friends but everyone says that
I guess since we boke up, you cranked up, you're messed up
You're just too fucked up

I've tried so hard to be polite
But I'm so fed up with being nice
It's exhausting getting screwed
So I'm here to tell you that we are through
Yea bitch we're through
So stop coming around here, don't try to talk to me
You're pissing me off and I'm trying to make you see

I've tried so hard to be polite
But I'm so fed up with being nice
It's exhausting getting screwed
So I'm here to tell you that we are through

I've tried so hard to be polite
But I'm so fed up with being nice
It's exhausting getting screwed
So I'm here to tell you that we are through
Yea bitch we're through

We're through
We're through
We're throughhhh
We're throughhhh
We're throughhhh
We're throughhhh
