

# Jhene, So Precious

Lately you've been stepping out  
On a game now  
Bout to lose another good thing  
I'm bona fide, you can't deny  
You know what you got what  
See that Benz you copped  
You know I'm just as hot  
This little shorty made just for you  
Cause this little shorty needs love too

Chorus

So Precious with them diamonds around your neck  
So precious so, don't let me go  
Ya cash flow or anything that you respect  
So precious so, don't let me go  
There's no limit to this jew so don't forget  
I'm the seventh digit on your paycheck  
I'm So precious, So Precious, precious

You know you want me, you know you feel me  
Don't front now  
Let me be the first t let  
That you ever cried  
Pamper me with love the way  
You treat the car you drive  
Respect the love, we had, we shared

Chorus

I'm not like them chicks that you had before  
Im tired but a billion more  
I know cash rules everything around you  
So let me give you the world and be your precious boo

Chorus
