

Jhene, Wait No More

Verse: 1

So here we are again boy this always happens
It ain't like we scared but we know what happens
When things move to fast but should be movin slow
And it makes me want you more.

Chorus:

Oh Boy, I been wantin this more then you know boy
It's killin me but we should take it slow boy
It be so much better if we wait till we can't wait no more

Verse: 2

Boy the love is there so there's no need for rushin
You can come right here but don't you start that touchin
It'd be so much better if we let this build up
It's worth the wait for something bigger.

Chorus: x2

Oh Boy, I been wantin this more then you know boy
It's killin me but we should take it slow boy
It be so much better if we wait till we can't wait no more

Bridge:

Baby we got time I'll be worth the wait
We got the ingredients just let em marinate
When the time is right, promise you
It'll be a night that you won't forget the
Rest of your life.

Lead Out: x2

Oh Boy, I been wantin this more then you know boy
It's killin me but we should take it slow boy
It be so much better if we wait till we can't wait no more
