Now I think its just time for you to move  
Its time for you to hit a home run like a bat girl  
Gone give it a test  
Cause you could do it the best  
Just be like Mitchell & Ness and throw it back girl  
Get wit it have ball and hit with it  
Trying to get with the crew  
Just thought that I'd mention it  
Cause I been with it  
In fact I'm a throw a hit with it  
Tried to blow ma mind when she turned around and spent with it  
So we could take it on back to the floor ma  
If you aint dancing than you looking at the door ma  
And she al fall if she do a little more ma  
Next thing she saw was the Lamborghini doors ha  
Don't get it twisted I aint saying you could leave boo  
Gone bring it back and you could show me what that thing do  
Don't get it twisted I aint saying you could leave boo

Steady going telling bout the party I'm throwing  
Im already knowing that she feeling the way that im flowing  
Take the girl from her  
And I'm a bring her out the lew  
Letting her see the palm trees  
Showing her how Cali do  
from burning one to doing the bounce

As soon as we open them and any doors the party gone jump  
As soon as we turn up the music the speakers go bump
