

Jibe, Broken

Misleading images
Show black and white
Confusing confidence
With a one track lie
I'm on a free ride
with time to kill
My f***ed up me ride
Gonna get my fill
A broken promise is one more than I can stand
Another sleepless night reminds me where I am
I'm on the other side of life
I'm on the other side of life

Subconscious messages
Turn out the lights
My only hostage
Is myself tonight
I'm on a free ride
With time to kill
My f***ed up me ride
Gonna get my fill
A broken promise is one more than I can stand
Another sleepless night reminds me where I am
I'm on the other side of life
I'm on the other side of life
