

Jibe, In Between

Please forgive me father for I've sinned
I had to complicate things in a bad situation
Please forgive me mother I'm in again
Oh so in again, I can't get out again
Send out the dogs, I guess they're coming after me
It feels like I'm going nowhere
Somewhere in between
All of this

Please forgive me father I'm feeling strange
Sometimes you gotta chase the day in the wrong direction
Please forgive me mother for the way I did
Oh everything I did, I'd do it all again
Send out the dogs, I guess they're coming after me
It feels like I'm going nowhere
Somewhere in between
All of this

Forgive me
When I get too low
Forgive me
When I get too high
Forgive me
There's nowhere left to go
Forgive me
Forgive me
Forgive me
Forgive me

Send out the dogs, I guess they're coming after me
It feels like I'm going nowhere
Somewhere in between
All of this
Send out the dogs I guess they're
They're coming after, they're coming after me
Its feels like I'm going nowhere
Somewhere in between
All of this
