

Jibe, River

Come out
Come out and play
Its beautiful
When night confines the day
No more daylight trip and fall
You're beautiful
Under velvet stars
You build me up
You bring me down
Your river
You found me out
I'm lost inside
Your river

Six A.M. the sun came up
To no surprise
Your perfect eyes
Were looking off
Building calm is giant waves
She travels lightly
Oversexed and winding up
She travels lightly
You build me up
You bring me down
Your river
You found me out
I'm lost inside
Your river
Your river
Yeah
She try, try, try, try
Yeah

Building calm is giant waves
She travels lightly
Oversexed and winding up
She travels lightly
You build me up
You bring me down
Your river
You found me out
I'm lost inside
Your river
Your river
Your river
Your river

Awake to the sound
She's coming down, down, down
