

Jill Paquette, Figure It Out

Hey wait

Let yourself hesitate and I will take the time

'Cause it's just like you to try running

The first time that you stand

Why don't you slow down, child

Let me take your hand and I will walk with you a while

You can talk to me

Never mind how long it has been

No no no no no

I see the stories in your eyes

The untold history is no disguise

'Cause it's through the surface that I see

And I've watched the anger blow you pull you drag you to your knees

Why don't you let me ease your mind

And you can rest in me a while

You can talk to me

Don't you see how much you matter to me

But you'll figure it out

You'll figure it out

All it takes is time to find what you're about

You'll figure it out

And every day's another trial

Every road is adding miles to you

And I'm praying for you to see you're free

Can't you see you're free to be free

Free to be free from everything

And you can rest, rest with me a while

You can talk, talk to me

Never mind how long it has been

'Cause you'll figure it out

You'll figure it out

'Cause all it takes is time to find what love's about

You'll figure it out

'Cause you'll figure it out

All it takes is time to find what you're about

You'll figure it out
