

Jill Tracy, Evil Night Together

I'll hold your hand while they drag the river
I'll cuddle you in the undertow
I'll keep my hand on your trigger finger
I'll take you down where the train tracks go

Let's wile away the hours
Let's spend an evil night together

We'll drink a toast in the torture chamber
And you'll go down on a bed of nails
We'll rendezvous in cold blood
I'll tie you up to the third rail

Let's wile away the hours
Let's spend an evil night together

Who's gonna make you a hero
Who's gonna blow you away
Who's gonna make you a hero
Hold it right there

It's a multiple down in solitary
And you'll uncover the evidence
Shanghaied by a fishnet stocking
I'll hold you close while they dust for prints

Let's wile away the hours
Let's spend an evil night together

No need for cake or flowers
Let's spend an evil night together
