

# Jim Brickman, My Heart Belongs To You

Vocals: Peabo Bryson

Look at me now

I thought I was near the end

Then you came along

When I needed a friend

And you made me love again

(Chorus)

Somehow you found me

Wrapped your love around me

Now my head's up in the clouds

When I'm around you

I just wanna say, everyday

Thank God I found you

I will move heaven and earth

Give you my heart, for all that its worth

You are mine 'til the end of time

I don't care what we're going through

'Til the end, my heart belongs to you.

You are my heart

You are my everything

The moon and the stars

And the air that I breath

And you gave me strength again

{Repeat Chorus}

You know why I'm love shy

I don't want to hurt anymore

I've been hurt before

And I know I

I'm saving my love for you

I'm gonna keep you safe and warm

I do love you

Now my head's up in the clouds

When I'm around you

I just wanna say, everyday

Thank God I found you

I will move heaven and earth

Give you my heart, for all that its worth

You are mine 'til the end of time

I don't care what we're going through

'Til the end my heart belongs to you

My heart belongs to you.
