## Jim Ed Brown, Sky Princess

Though you became a star Used to a twinkle in his heart Every night little sky princess You're living on a cloud that Will fall to the ground some day Little sky princess

Go on with your career Don't worry bout him dear He's doing okay You live a life of gaiety That isn't reality I hope you'll realize someday.

## --- Instrumental ---

Though you became a star
Used to a twinkle in his heart
Every night little sky princess
I wonder if he calls you on the phone
Would you be alone
And be proud to hear from him.

Remember he's the little guy
Who have to get up to the sky
And he'll always be sorry
For the twinkle in his eye
Will stop twinklin' by and by
If you don't come down sky princess.
