

Jim Reeves, I'll Follow You

I'll Follow You

I'll follow you from here to a star afar
No matter where you are I'll follow you
Just lead me on where ever you want me to be
Darling, it's plain to see that I'll follow you.

When you need someone to caress you
I'll be there
And when your heartaches get heavy
I'll gladly share.

So now you know
that I belong to you
And that my love is true,
I'll follow you.

--- Instrumental ---

When you need someone to caress you
I'll be there
And when your heartaches get heavy
I'll gladly share.

So now you know
that I belong to you
And that my love is true,
I'll follow you...
