

Jim Reeves, Need Me

You can go where you wanna go
Even sail the ocean blue
Just need me
That's all I need to know.

You can do what you wanna do
And I'll bless each little thing you do
Just need me
That's all I ask of you.

It would please me to know that you need me
When the road is dark where you walk
Please let me know that you need me
To listen while you talk.

Go where you wanna go
Even sail the ocean blue
Just need me
That's all I need to know.

It would please me to know that you need me
When the road is dark where you walk
Please let me know that you need me
To listen while you talk.

Go where you wanna go
Even sail the ocean blue
Just need me
That's all I need to know...
