

Jim Reeves, Wagon Load of Love

I've got a wagon load a wagon load of love
All I need's a pretty little girl to give my heart a shove
I've got a basket full a basket full of kisses
Won't you come and ride upon my wagon load of love
We'll ride ride ride down lover's lane together side by side in every kind of weather
This wedding band to fit your hand like a brand new glove
So won't you come and ride upon my wagon load of love
[fiddle - steel]
I've got a wagon load of things to keep us happy
There'll be girls to call you mom and boys to call me pappy
All I need's a pretty little girl to give my heart a shove
So won't you come and ride upon my wagon load of love
We'll ride ride ride down lover's lane together side by side in every kind of weather
I've got a wagon load of things to grand your wishes
All I need's a pretty little girl to help me wear the briches
This wedding band to fit your hand like a brand new glove
Won't you come and ride upon my wagon load of love
