

Jim Reeves, You Are My Love

You are my darlin'
There's no one but you
And to you I'll be true
Our whole life through.

Heaven in smilin'
Because you love me
It's as plain as can be
You're my love.

Ask the stars that shine
There above you
Who loves you
And needs you tonight.
They'll tell you it's
I who love you
And I'm lonely when
You're out of my sight.

You are my darlin'
There's no one but you
And to you I'll be true
Our whole life through.

Heaven in smilin'
Because you love me
It's as plain as can be
You're my love...
