

Jim Robert, Goodbye To A Friend

Remember the times when you were around
You and I get in trouble over our heads
And now you're nowhere to be found
No formal goodbyes were said

So I guess this is goodbye to a friend
So I guess I'll never see you again
Over are the times we'll always remember
No we'll never forget.

So I guess this is goodbye to a friend
Over are the times we'll always remember
Vocalizing what can't be said
Everything ends with the burning of the ember

Remembering the memories, if they only knew
And this is a tribute to you
I guess that this is the end
My good friend I will miss you
Looking through my closed eyes
Ending this sad song I say goodbye

So I guess this is goodbye to a friend
Someday I'll see you again
