

# Jim Steinman, Lost Boys And Golden Girls

Lost boys and golden girls, down on the corner and all around the world

Lost boys and golden girls

Down on the corner and all around, all around the world It doesn't matter where they're going, or where

'Cause they got one thing in common it's true

They'll never let a night like tonight go to waste

And let me tell you something, neither will you, neither will you

We gotta be fast, we were born out of time, born out of time and alone

And we'll never be as young as we are right now

Running away and running for home, running for home

Lost boys and golden girls, down on the corner and all around the world

Lost boys and golden girls

Down on the corner and all around, and all around the world
