

# Jimi Blue, Party in the city

Its friday night an i'm down chilling with my crew  
Its kinda boring - now let me tell you what we do  
The night is young and we're desperate for fun  
I order a cap - and now were on the run  
All the guys and the girls are coming out its time to play  
Check it out, check it out we're gonna dance the night away  
Here we go, here we go everybody's chasing city in our sights  
Shake it out, shake it out we've got the city in our sights

Chorus

Don't let me down tere's a party in the city  
Friady night there's a party in the city  
Don't let me down tere's a party in the city  
Catch a ride com on down  
Everything is possible tonight is our night  
Girls, party, action - yeah this is what we like  
Riding our skateboards and joking around  
Checking out the girls - yeah I know you feel me now..

So

So you're coming down?  
Yeah I'm coming down.  
You're gonna last all night?  
Yeah I'll last all night  
So your're coming down?  
Yeah I'm coming down.

All the guys and the girls are comingout this time to play

Here we go, here we go everybody's chasing city in our sights
