

Jimmie's Chicken Shack, Do Right

Won't make the bed up straight
I always stay out late
I never take you out
That's what you're all about

I always smell like smoke
Everything's just a joke
I never look at you
When you come hear me sing

These are not all of the many simple things
You can find wrong with me
Once would you tell me please...

(Refrain)
What do I do, what do I do, what do I do
What do I do right?
(x2)

I never talk to you
Be who you want me to
My music's way too loud
My friends are all so proud

Say I'm just wasting hope
I could not thread the rope
More than my pocket's broke
And you don't see a ring

These are not all of the infinitesimal things
You can find wrong with me
But would you tell me please...

(Refrain)

If I wanted to play this game
Yeah, I'd join
But losing the game doesn't mean
That we're losing the fight

(Refrain, repeated a few times)

What do I do right
What do I do
Won't make the bed up straight
I always stay out late
What do I do
What do I do that is
What do I do
What do I do that is
Right
What do I do that is...(fade out)
