

# Jimmies Chicken Shack, Alone

yeah she left  
yeah she left me alone  
but it's all right 'cause i got my microphone  
now i'm off with my brothers put my head in the zone  
because she left me all alone

that's right she left  
yeah she left me alone  
but it's all right 'cause i got my microphone  
now i'm off with my brothers put my head in the zone  
because she left me all alone

say what's your image of a man when you call me bum  
i guess i just see where you don't come from  
say what's your image of a man when you call me bum  
i guess i just see where you don't come from

so when will i ever learn  
when will i ever learn  
just because i give up everything  
doesn't mean that everything will return

how come when i'm looking for answers  
i always look outside of myself  
you think i would have learned my lesson still  
i'm searching for someone else

and i think i should examine my head again  
i think i should examine my head  
i think i should examine my head again  
i think i should examine my head  
i think i should examine my head again  
i think i should examine my head  
i think i should examine my head again  
i think i should examine my head
