

Jimmies Chicken Shack, Where The Good Ones

they got the money
but we got the quickness
they control the judges
yah but we got the witness
some say it's a crime
some say it's just a business
just another killer for the capitol interest
they feed you lies
and they give you their opinions
we're just planting mines
for their consciousless minions
pledge your alliegance to corporate nation
if you want to survive there must be no hesitation

so show we a place where all the good ones go
burn up all your bags and we will head for the show
even if their minds are not open and ready
we will kick it live and we will rock them steady

i got good intentions and it's time to prove it
as for the ass yo i think you better move it
i got good intentions, and it's time to prove it
as for the ass yo i think you better move it

they got excuses
but we got the reason
got new face they try and sell you every season
they will show you figure just to prove that you are with it
in a month they will bet on you to forget this
just another gumball for another penny
just another savoir for their conscienceless many

so show we a place where all the good ones go
burn up all the baggage in yourself and let go

we share in the spirit that is open and ready
kick the good love and keep rocking them steady

i got good intentions and it's got to prove it
as for the ass yo i think you better move it
got good intentions and we got to prove it
as for the ass yo i think you better move it, groove it

show me
where all the good ones go
show me
where all the good ones go
show me
where all the good ones go
show me, show me
where all the good ones go

where all the good ones go
where all the good ones go
show me, show me
where all the good ones
show me, show me
where all the good ones
show me, show me
we are the good ones go
