

# Jimmy Barnes, It Will Be All Right

Well a passing glance across a room  
Brought me to your side  
And the words you spoke like melodies  
Made my spirits high.  
If forever seems too long for you  
I'll gladly set you free  
But if I always dream of you  
It will be all right with me.  
Well I always felt alone in life  
Until you came along  
You took away my darkest fears  
And made me feel so strong  
Well I know that nothing stays the same  
I'll have to let you be  
But if I always dream of you  
It will be all right with me

(BRIDGE)

You and I are the same  
We need to be loved some time  
But we're scared of the pain  
We find if we waste our time  
Sometimes you have to choose to walk the line  
Even if you're walking blind  
That's the game we play  
And if forever seems too long for you  
I'll gladly set you free  
But if I always dream of you  
It'll be all right with me  
And if I always dream of you  
It will be all right with me
