

# Jimmy Barnes, Out In The Blue

There's no looking for me girl  
If I don't want me to be found  
Cause I've been hiding for a lifetime girl  
But that's all changed since you've been around

Out in the blue is where I've been  
I kept my feelings deep within  
My heart was covered up by scars  
From out in the blue you've brought me back  
You have everything I lack  
Now I like the way things are

I change the habits of a lifetime girl  
Just lose the old and start anew  
And find direction straight down girl  
Stop the lies and face the truth

Out in the blue is where I've been  
I kept my feelings deep within  
My heart was covered up by scars  
From out in the blue you've brought me back  
You have everything I lack  
Now I like the way things are

I'm looking forward to what's coming now  
I'm ready for life's ups and downs  
And facing up to what life has in store  
And it's easier with you around

Out in the blue is where I've been  
I kept my feelings deep within  
My heart was covered up by scars  
From out in the blue you've brought me back  
You have everything I lack  
Now I like the way things are

The way things are
