## Jimmy Buffett, Back To The Island

Now the day is done And I sit alone and think of you girl What would I do without you in my life

Wonderin' if you love me or just playing a fool of me. Well I hope you understand I just had to go back to the island

And watch the sun go down Listen to the sea roll in I'll be thinkin' of you And how it might've been Listen to the nightbird cry Watch the sun set die Well I hope you understand I just had to go back to the island

Threaded in my heart Tears are falling down I know down in my soul I'm really gonna miss you

Caan't end this way For all the games we've played. So I hope you understand I just had to go back to the island

And watch the sun go down Listen to the sea roll in I'll be thinkin' of you And how it might've been Listen to the nightbird cry Watch the sun set die Well I hope you understand I just had to go back to the island

And watch the sun go down Listen to the sea roll in I'll be thinkin' of you And how it might've been Listen to the nightbird cry Watch the sun set die Well I hope you understand I just had to go back to the island

I hope you understand I just had to go back to the island
