Jimmy Buffett, Mermaid In The Night

I went out fishing on a sandy beach Cast my line out as far as it would reach Looking for something from the frying pan I kick back with a beer in my hand

I must've got a big one cause it's bending my pole I'm having to fight just to keep my hold It could be a whale (oh) God only knows Whatever it is it's not wearing any clothes

[Chorus:] She's larger than life Made from holy water She's covered in green She's got little scales upon her She's larger than life She's a mermaid in the night

She's got a set of gills, like no fish I've ever seen Long blonde hair and a tail in between I'm in love ith a creature from the sea And she's bringin' out the crustacean in me

Her voice is a temptation it's a siren song When we kiss there could be no wrong I ask her to marry me, to be my wife And we could do the backstroke for the rest of our lives

[Chorus]

She's larger than life Made from holy water She's covered in green She's got little scales upon her She's larger than life She's a mermaid in the night
