

Jimmy Buffett, That's My Story & I'm Stickin' To It

That's my story and I'm stickin' to it
By: jimmy buffett, jay oliver
1989

Kindergarten
King of excuses
Sister mary mojo so hard to trick
What can I say
Dog ate my homework
I could play the game
They love me anyway

Alibis, angles and tales from the tropics
Come to my mind so easy and quick
Spacemen from mars stole all of my money
But I could play the game
They love me just the same

Chorus:
That's my story and I'm stickin' to it
That's my life and all that I've got
Call me a liar, call me a writer
Believe me or not
Believe me or not

Women always know before you tell them
The younger girls so easy to trick
What's that word? I think I'm eccentric
But I can play the game
They love me anyway

Revelations
Love when they happen
Wizards and lizards I choose and I pick
In a hundred years this all won't matter
How you play the game
They love you just the same

Chorus:
That's my story and I'm stickin' to it
That's my life and all that I've got
Call me a liar, call me a writer
Believe me or not
Believe me or not

I will play the game
I will stay the same
I will play the game
Believe me or not

(guitar instrumental)

Chorus:
That's my story and I'm stickin' to it
That's my life and all that I've got
Call me a liar, call me a writer
Believe me or not
Believe me or not

Chorus:
That's my story and I'm stickin' to it
That's my life and all that I've got
Call me a liar, call me a writer
Believe me or not

Believe me or not

I will play the game (I will play the game)
I will stay the same (I will stay the same)
I will play the game (I will play the game)
Again and again (again) and again

I will play the game (I will play the game)
I will stay the same (I will stay the same)
I will play the game (I will play the game)
Again and again (and again)
