Jimmy Castor Bunch, It's Just Begun

Watch me now Feel the groove Into something Gonna make you move

Here we come On the run Don't know what We're running from

Day or night
Black or white
Dance or sing
You gotta do your thing
You gotta do your thing

Peace will come This world will rest Once we have Togetherness

Day or night Dynomite We had fun But it's just begun It's just begun It's just begun

It's just begun (x 30)
